a social person capable of interacting with others. Socialization differs from one society to another and within any society from one segment to another. "Childhood Socialization" samples some of that variation, giving the reader a glimpse of socialization in contexts other than those with which he or she is likely to be familiar.

## Childhood Socialization - Google Books

Abstract. This chapter examines the development and operation of socialization in the lives of children and adolescents, with a focus on the mechanisms and consequences of socialization. Consideration is given to theoretical perspectives on (a) how children and adolescents learn social roles, (b) the role of agency in social development, (c) the social contexts in which socialization occurs, (d) socialization over the life course, and (e) how socio-historical change influences the ...
