Refer to figure 1.1-4 (construction to prove Snell's law) of the text book. The time to travel between the two points say and is the distance in each medium divided by the speed of light in the medium. (1) Here, is the time of travel, are the speed of light in medium 1 and medium 2 respectively and are the paths of ray travel. The speed of light in a given medium can be written in terms of ...
