IBM® Rational Unified Process® Reference and Certification—

IBM's technical support resource for all IBM products and services including downloads, fixes, drivers, APARs, product documentation, Redbooks, whitepapers and technotes. Rational Unified Process - IBM Support

Rational Unified Process—IBM

The Rational Unified Process is an iterative software development process framework created by the Rational Software Corporation, a division of IBM since 2003. RUP is not a single concrete prescriptive process, but rather an adaptable process framework, intended to be tailored by the development organizations and software project teams that will select the elements of the process that are appropriate for their needs. RUP is a specific implementation of the Unified Process.

Rational Unified Process—Wikipedia

Specifically, at IBM Rational, we have found that we can adjust RUP input artifacts with PMBOK process inputs, RUP steps with PMBOK process tools and techniques, and RUP resulting artifacts with PMBOK process outputs. Once we have found what needs to be tailored, we have a few options to make those changes available to the project team.

Standards, compliance, and Rational Unified Process—IBM

The Rational Unified Process® is a Software Engineering Process. It provides a disciplined approach to assigning tasks and responsibilities within a development organization. Its goal is to ensure the production of high-quality software that meets the needs of its end-users, within a predictable schedule and budget. [11, 13]
