~~Integrating traditional medicines into Western medical treatment. Traditional medicines have been used for thousands of years by Indigenous people in Canada, with demonstrated efficacy in treating a wide range of health issues. Many of the medicines in contemporary biomedical treatments are derived from plants and herbs used by Indigenous people throughout the world.~~

~~Integrating traditional medicines into Western medical ...~~

~~Further, there is also the need to better integrate traditional medicine and modern medicine in order to address broader public health and patient safety concerns that may arise from their uncoordinated use - such as the problems of abuse/overdose, toxicity or poison risk, potential for adverse events, medication interaction, overlap of active ingredient and need for appropriate dosaging - that have not been fully explored for potential benefit.~~
