Summary. When it comes to the study of regional conflicts, realists as a group have been loath to put forward a clear and generalizable theory. This is not to say that realists have not offered insights into the probability of militarized conflict in particular regions. In the early 1990s, for example, John Mearsheimer and Aaron

Functionalism  
(international relations)

Functionalism is a theory of international relations that arose during the inter-War period principally from the strong concern about the obsolescence of the State as a form of social organization. Rather than the self-interest of nation-states that realists see as a
