ICT is often part of a teacher-centred class but it is easy to exploit these tools in learner-centred activities. For example, learners can control a cassette or DVD, stopping it each time they hear a contraction, develop their own class blog on the Internet with minimum teacher involvement, or use a computer in a multi-media area to present their findings from a pre-reading task.

Plan a series of lessons that are linked to the same theme to have coherence to your lessons. Have extra activities ready just in case they finish early. This can be for both mid-lesson for quick finishers or at the end of the lesson if your plan is shorter than you imagined. Remember to allow time for preparation, action and reviewing.
