Oracle Materials Control  
Since version 8.7.30.xx the application allows to use the Windows Domain User to login into Materials Control. Using this feature Domain Users known to Materials Control do not need to enter the user name and the password anymore.

MICROS Materials Control - Oracle  
The ODBC connection between the Materials Control system/server and the RES/EM server needs to be established. This connection must be created on the PC which will import the sales items and, depending on the used variant, also the revenue transfer. The MICROSOFT Windows Control Panel allows such connections using the ODBC Data Source Administrator:

MICROS Materials Control - Oracle  
Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

Materials Control - Oracle  
It is possible to book sales manually directly in Materials Control. It is a basic functionality. This function was developed to manually book the consumption of events or consumption of the minibar or to post manual sales where there is no cash register. You can even create templates to simplify booking.
