The pro-106 is a Digital Trunk Tracking scanner has the ability to track APCO 25 digital trunking systems, in addition to following Motorola type I/II systems, LTR and EDACS trunking systems. It is functionally identical to the PSR-500 and the later Whistler WS1040. It uses the same software and cables.

Pro-106 - The RadioReference Wiki

The PRO-106 design is a few years old now, and no longer in production, but it is an excellent scanner for most purposes. The object-based memory system provides an

Where To Download Pro 106

excellent level of flexibility; any object (channel) can be assigned to any or all of the 20 memory banks and the size of each bank is fully customizable.
