Robots Are People Too: How Siri, Google Car, and ...

Design influences how prepared humans are to interact with the robot. Give it something resembling a face, and movements that begin to mirror human actions, then people become more interactive, and project feelings and narratives onto that inanimate object. This brings into play concerns about the extent to which humans can become attached to robots.

Can Robots be People Too? - RNR Robot Solutions

Robots Are People Too: How Siri, Google Car, and Artificial Intelligence Will Force Us to Change Our Laws . 2013. Abstract. For years, robots were solely a matter of science fiction. Today, artificial intelligence technologies serve to accelerate our already fast-paced lives even further. From Apple's Siri to the Google Car to GPS, machines and ...

Robots Are People, Too - Slate Magazine

The more empathy people feel toward a robot—the more human they think it is—the more vulnerable people will be in relation to it. A robot with high social valence could be capable of deceiving people, Cofone warns. It “ could pretend to care for our interest ” but in fact be programmed to serve “ the commercial interests of other people. ”
